

# Technical Data Sheet

## Stainless Steel Bearings

6000 series - 6200 series - 6300 series

61800 series - 61900 series

Less than 10 mm bore

Other series and special types on request

MCR® Stainless steel Bearings grant optimal corrosive resistance and high load capacity.

Produced with 100% high quality stainless steel to give you low maintenance and trouble free operation at very reasonable price.

Ideal for use in food processing, beverage, pharmaceutical industry and all "hygienic" application.

**Outer ring**

AISI 440C stainless steel, heat treated

**Two-piece cage**

AISI 302 stainless steel

**Ball**

AISI 440C stainless steel, heat treated

**Snap**

AISI 440C stainless steel, heat treated

**Shield**

AISI 302 stainless steel

**Inner ring**

AISI 440C stainless steel, heat treated

**Seal**

RUB + AISI 302 stainless steel
